

AKASH YADAV

Computer Science Engineering Student | Software Developer

7460855090 | yaak73749@gmail.com

| [Portfolio](#) | [GITHUB](#) | [Linkedin](#) | Greater Noida, Uttar Pradesh

Professional Summary

Computer Science Engineering student with knowledge of Python, Java, DBMS, OOP, Web Development, and Cloud Computing. Experienced in developing academic and personal projects using modern technologies and version control tools. Seeking an opportunity to contribute technical and analytical skills while learning and growing in a professional software development environment.

Education

Bachelor of Technology (B.Tech) in Computer Science & Engineering(AI) Galgotias College of Engineering & Technology, Greater Noida

Senior Secondary Education 2021

DR RIZVI LEARNERS ACADEMY,JAUNPUR 67%

Secondary Education 2019

DR RIZVI LEARNERS ACADEMY,JAUNPUR 84%

Skills

Technical Skills:

- Programming Languages: Python, Java, JavaScript, C,C++
- Web Technologies: HTML, CSS, JavaScript, React.js, Tailwind CSS
- Databases: MySQL
- Tools & Frameworks: Git, GitHub, AWS Cloud, VS Code

Soft Skills: Teamwork, Communication, Problem Solving, Adaptability, Time Management

Projects

TracMate – Productivity & Task Management Platform

- Developed a task management platform using React and Firebase.
- Implemented authentication and cloud-based task storage.
- Designed responsive UI supporting task creation, updates, and tracking.
- Reduced task management complexity through centralized workflow tracking.
- Live Demo: <https://tracmate.vercel.app>
- Source Code: <https://github.com/AKYADAV-73749/tracmate>

AI Disease Detection & Health Assistance System | Gemini API ,Multimodal

- Developed an AI-powered healthcare web application using React.js and Tailwind CSS to analyze symptoms, medical images, and lab reports.
 - Integrated Google's Gemini API directly via JavaScript SDK to generate intelligent, real-time health recommendations and multi-lingual responses.
 - Engineered a robust multi-AI fallback system using the Groq API (Llama 3 models) to ensure continuous service availability during API rate limits.
 - Implemented Firebase for secure user authentication, role-based access control, and cloud-based scan history tracking.
 - Designed a responsive user interface with advanced prompt engineering to ensure highly accurate, context-aware AI outputs based on patient profiles
- Live Demo : <https://disease-seven.vercel.app/>
 - Source Code: <https://github.com/AKYADAV-73749/disease>

Internships

TechSaksham | AI Intern 2025

- Successfully completed AI internship under TechSaksham.
- Gained practical exposure to Artificial Intelligence concepts and applications.
- Participated in industry-oriented learning modules conducted by Microsoft, SAP, and Edunet Foundation.
- Enhanced analytical and problem-solving skills through hands-on activities.

Certifications

- AWS Academy Graduate – Cloud Architecting | AWS Academy | 2026
- AI: Transformative Learning with TechSaksham | Microsoft, SAP, Edunet Foundation & AICTE | 2025
- Geo-data Sharing and Cyber Security | ISRO-IIRS | 2025

Achievement

- Completed AWS Academy Cloud Architecting Training (60 Hours).
- Successfully completed AI Internship under TechSaksham.
- Active contributor to academic and personal projects on GitHub.
- Hands-on experience with React.js, Python, Git, and Cloud Computing.
